

*Women suffer hair loss too...
but there are real solutions*

TESTIMONIAL

Lydia Schiavello
Real Housewives of Melbourne

Lydia
XX

I have a worldwide television audience so my hair has to be perfect

I was one of the original women starring in the Real Housewives of Melbourne for eight years. So from the start it was really important to me that I looked as good as I possibly could, especially my hair.

The problem was that my hair lacked the volume and the length to give it the look that I wanted, and I had to be absolutely certain that any procedure I had done would not damage my existing hair.

That's why I chose Advanced Hair Studio's procedures. It looks fantastic, feels great. From the fan mail I receive, women worldwide also love my hair.

TESTIMONIAL

My full makeover is now complete!

A few years ago I had some cosmetic surgery and I then decided to also do something about my thin hair. I tried hair extensions to thicken my hair, but all they did was pull my hair out, so it looked even worse!

I then did some research to find a place local to me that could offer an alternative and went to a consultation at Advanced Hair Studio. Once their procedure was explained, I was sold on the spot! Now I've got the hair I wanted, I absolutely love it!

PRIOR

TESTIMONIAL

My husband loves my new hair!

My hair loss started about three years ago and I tried to hide it by wearing headbands.

I started looking on the internet but it wasn't until I talked to Advanced Hair Studio about their **HAIRFUSION™** procedure that I realised I could afford to do something about my hair loss.

My husband says I'm back to my old self again... I'm so happy with the end result!

Now I am going to my son's upcoming wedding and don't have to worry about the family photos!

PRIOR

Hair loss amongst women can be caused for a variety of reasons including illness, genetics, even hormonal imbalance, but Advanced Hair Clinic can provide highly effective solutions for all types of hair loss.

The answer to partial or complete hair loss

Advanced Hair Studio have been developing and perfecting hair replacement procedures for 45 years. This research led to the development of the patented **HAIRFUSION™** procedure that guarantees all women can have a full and totally natural looking head of hair again.

There is **no surgery** involved in this very popular procedure. The **HAIRFUSION™** procedure also enables you to enjoy an active lifestyle, whether it be swimming, jogging or any type of sports activity, and you can do it with complete confidence.

Alopecia or abnormal hair loss

TESTIMONIAL

Having a full head of hair gives me back my healthy look

It's been almost a decade since I became ill and started losing my hair. The thing that prompted me to see Advanced Hair Studio was a Shane Warne commercial, that got me thinking if they could do that for men, surely they could help women with hair loss problems.

I was so nervous in the early stages, but the understanding of the staff helped get me through.

For me, now having a full head of hair is showing the world I'm not sick, and just as importantly I'm not reminded of my sickness when I look in the mirror.

Every woman deserves a full healthy looking head of hair

The causes of hair loss in women are quite varied but Advanced Hair Clinic can ensure that no matter what the reason a full head of hair again can be achieved and maintained for life.

Whether you are suffering from Alopecia, hormone imbalance, abnormal hair loss or temporary hair loss due to illness or medical treatment or simply just want longer thicker hair. Advanced Hair Clinic's programs specifically designed for women can restore your appearance and self confidence.

All programs are conducted in complete privacy and you are assured of absolute confidentiality.

PRIOR

Regrow thicker stronger healthier looking hair

ADVANCED Laser Therapy® is a powerful combination of programs: the latest laser beam technology, an FDA approved regrowth+ pharmaceutical, and proven scalp and follicle treatment programs. Laser technology has revolutionised many aspects of our lives and this is also true of its beneficial affects on scalp and hair.

ADVANCED Laser Therapy® is completely safe and visible benefits can occur in as little as three months.

TESTIMONIAL

Miss England

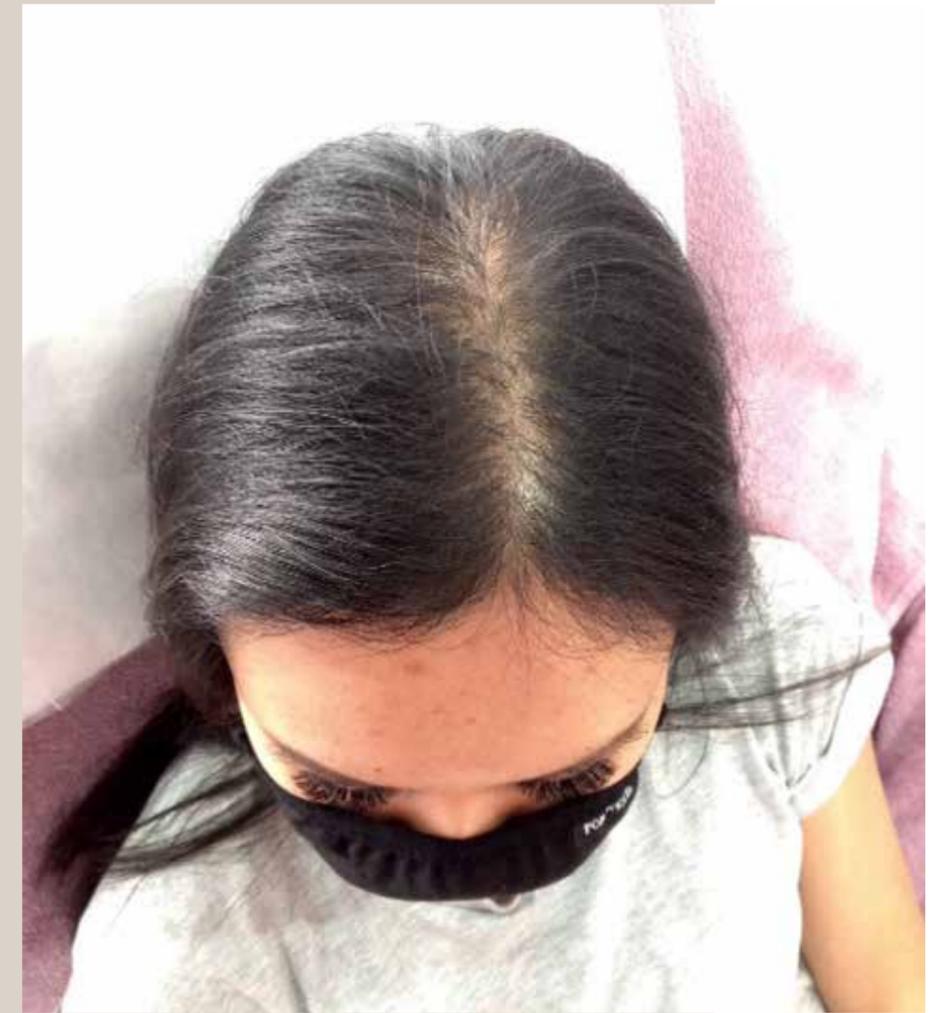

I'm probably best known as an actress, fashion model and winner of the Miss England competition but for a number of years I've also been a proud ambassador for Advanced Hair Studio. Many people comment on just how good my hair looks and I know that has become a feature of my appearance.

The length and volume of my hair is all thanks to Advanced Hair Studio's amazing Flashpoints that I can confidently say are the world's best hair extensions. The attachment method is unlike any other and causes absolutely no damage to your existing hair, and Flashpoints are also made from the finest quality human hair making them virtually undetectable.

I know many other top models use Flashpoints and the reason is simple, they are the best.

*Growth Cell Enhanced PRP
can increase hair growth by
over 95%*

Advanced Hair Clinic continues to pioneer new scientific methods of hair restoration and we are excited to announce that our Growth Cell Enhanced PRP treatment program can increase hair growth by over 95%. The key to this success is that growth cells have the ability to self renew or multiply, meaning they can repair and replace tissue in the human body. In other words, they have the ability to significantly increase hair growth.

In conjunction, Platelet Rich Plasma (PRP) Therapy uses blood cells that are responsible for the natural healing process in the body. The activated platelets extracted from your body secrete the necessary growth factors to repair and rejuvenate, thereby reducing miniaturisation of hair follicles and encouraging normalisation of the hair follicle.
